Palo Alto Networks Ignite Conference™

Wynn Las Vegas | Las Vegas, Nevada, United States | November 12-14, 2012

Join us for the inaugural Palo Alto Networks Ignite Conference promising to be the network security event of the year. Ignite Conference 2012 will feature keynote presentations by industry thought leaders and visionaries, community generated content, onsite training and certification, networking opportunities and much more.

MONDAY, NOVEMBER 12, 2012

Time	Event
12:00PM–7:00PM	Registration
1:00PM–3:00PM	CNSE Certification Study Review
3:00PM–3:30PM	Break
3:30PM–6:00PM	CNSE Certification Exam
5:00PM–7:00PM	Ignite Expo | Expert Lab

TUESDAY, NOVEMBER 13, 2012

Time	Event	
8:00AM–5:00PM	Registration	
9:00AM–10:00AM	Continental Breakfast	
10:00AM–10:30 AM	Fueling the Fire	Mark McLaughlin, CEO, Palo Alto Networks
10:30AM–11:15AM	Securing the Future	John M. McConnell, Vice Chairman, Booz Allen Hamilton
11:15AM–12:00PM	What's Next for Network Security	Lee Klarich, Vice President Product Management, Palo Alto Networks
12:00PM–1:00PM	Lunch | Ignite Expo | Expert Lab	

	Future of Network Security	Architecting Next-Generation Network Security	Revolutionizing Network Security Operations
1:00PM–2:00PM	Gartner Session	Forrester Research Session	Securosis Session
2:00PM–3:00PM	What's Really Happening on Your Network?	The Life Cycle of the Modern Attack	Security in an Open Environment*
3:00PM–4:00PM	The Future of Network Security from the Drivers' Seat*	IPv6 Security with Palo Alto Networks*	Less is More: Moving your Policies to a Next-Generation Firewall*
4:00PM–4:30PM	Break		
4:00PM–7:00PM	Ignite Expo | Expert Lab		
4:30PM–5:30PM	Modern Malware Deconstructed	Deploying Next-Generation Firewall Globally	Making the Most of App-ID™
5:30PM–6:30PM	What Happens to Network Security When the Data Center Goes Virtual?	Perils and Pearls of Decrypting Network Traffic*	How Logging and Reporting with the Next-Generation Firewall Made the Difference*
8:00PM–12:00AM	Evening Event		

* Customer speaker presenting in this session

WEDNESDAY, NOVEMBER 14, 2012

	Future of Network Security	Architecting Next-Generation Network Security	Revolutionizing Network Security Operations
8:00AM–12:00PM	Registration		
8:30AM–10:00AM	Networking Breakfast		
10:00AM–11:00AM	WildFire™ Bootcamp	Deploying the Logical Perimeter	Panorama Under the Hood
11:00AM–12:00PM	Technical Leader Session	Customizing User-ID™ with the XML API	Getting to Know Unknown Threats
12:00PM–1:30PM	Networking Lunch		
12:00PM–4:00PM	Ignite Expo	Expert Lab		
1:30PM–2:00PM	Technical Leader Session	Technical Leader Session	Technical Leader Session
2:00PM–3:00PM	Technical Leader Session	Designing a Zero Trust Network*	My Best Friend is a QSA—How to Make PCI Compliance Faster and Cheaper (working title)*
3:00PM–3:30PM	Technical Leader Session	Technical Leader Session	Technical Leader Session
3:30PM–4:00PM	Break		
4:00PM–4:45PM	The Changing Face of Network Security	Customer Panel		Chris King, Director of Product Marketing, Palo Alto Networks
4:45PM–5:30PM	Igniting Innovation		Nir Zuk, CTO, Palo Alto Networks

* Customer speaker presenting in this session

Future of Network Security
Gain insights on the new developments in next-generation network security. Learn from the latest real world data from customers and researchers.

Architecting Next-Generation Network Security
Learn how to develop a network security infrastructure that is scalable in a changing computing landscape. Hear directly from customers and partners about prevailing strategies.

Revolutionizing Network Security Operations
Understand the impact next-generation network security has on day-to-day life in the enterprise. Hear from customers and expert SEs on how security operation has become better, faster and cheaper.
