Palo Alto Networks and Q1 Labs

## Technology Segment: Security Information and Event Management

The Palo Alto Networks Technology Partner Program includes a select group of partners that deliver solutions or products that interoperate with the next-generation firewall.

HIGHLIGHTS

- Complete support for access and rule compliance at the user and application level
- Configuration and reporting of threat signatures for integrated threat management
- Full on-demand policy compliance audits (PCI-DSS, NIST, etc.) for next-generation firewalls
- Automated firewall analysis and audits to optimize firewall rule-sets and maintain compliance
- Network modeling and access path analysis to troubleshoot application and user connectivity issues

SOLUTION OVERVIEW

Palo Alto Networks and Q1 Labs have partnered to jointly deliver the only next generation security intelligence and control solution. QRadar's best-in-class data collection, analysis, correlation and auditing capabilities coupled with Palo Alto Networks unique application, user and threat control enable organizations to quickly and easily implement a next-generation security management program to meet current and emerging network security challenges. The combined solution enables security professionals to comprehensively identify, defend against, and remediate exploits and policy violations.
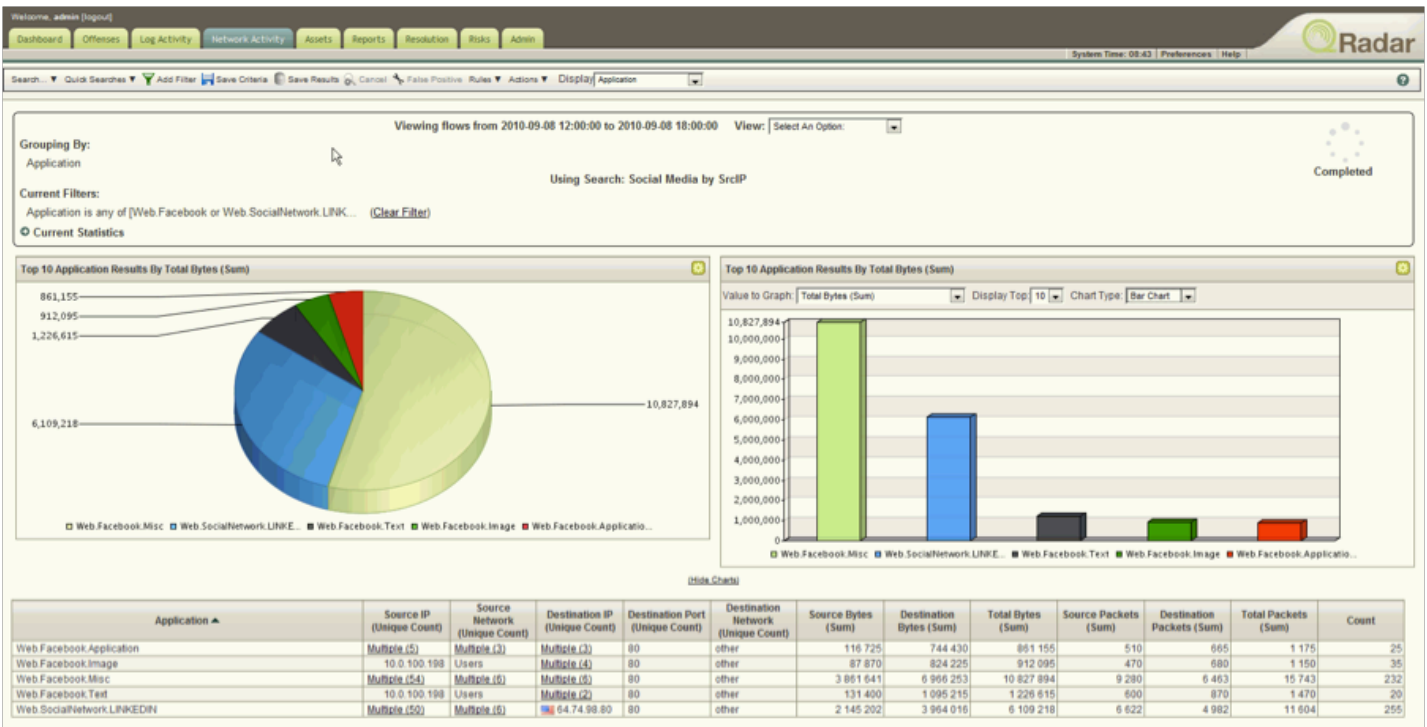

PALO ALTO NETWORKS

Palo Alto Networks™ (NYSE: PANW) is the network security company. Its innovative platform allows enterprises, service providers, and government entities to secure their networks and safely enable the increasingly complex and rapidly growing number of applications running on their networks. The core of Palo Alto Networks' platform is its Next-Generation Firewall, which delivers application, user, and content visibility and control integrated within the firewall through its proprietary hardware and software architecture. Palo Alto Networks' products and services can address a broad range of network security requirements, from the data center to the network perimeter, as well as the distributed enterprise, which includes branch offices and a growing number of mobile devices. Palo Alto Networks' products are used by more than 9,000 customers in over 100 countries.

Q1 LABS

Q1 Labs is a global provider of high-value, cost effective next-generation security intelligence products. The company's flagship product, QRadar SIEM integrates previously disparate functions—including risk management, log management, network behavior analytics, and security event management—into a total security intelligence solution, making it the most intelligent, integrated and automated SIEM product available. QRadar SIEM provides users with crucial visibility into what is occurring with their networks, data centers, and applications to better protect IT assets and meet regulatory requirements.
